# INTRODUCTION

This Manual has been prepared to provide the service operator with the necessary information for the maintenance and repair of the M.G. (Series MGA Twin Cam).

The Manual also serves as a ready-reference book for service supervision and covers items of procedure for the guidance of both the fully qualified and the less-experienced mechanic.

## **UNIT ARRANGEMENT**

In the Manual the complete vehicle is divided into Sections each of which deals with an assembly or major component and carries a reference letter.

## **NUMBERING OF PAGES AND ILLUSTRATIONS**

The pages and illustrations are numbered consecutively within each Section, and the Section title and letter are shown at the top of each page.

## **SERVICE TOOLS**

Use of the correct tools contributes to an efficient, economic, and profitable repair. References have therefore been made to such tools throughout the Manual.
